TUTORIAL TIPS:

- **Read Aloud!** Pronounce each word distinctly and clearly.
- Don't stop at words that you stumble on. Read straight past them till the end of the sentence, then return to resolve them.
- Read each chapter twice.
- If you are having great difficulty progressing, backtrack (through the current or previous chapters) until you find paragraphs that are easy to read and restart from there.
- Keep a printed copy of the read alphabet on hand. It is quicker and easier to look at a paper copy than to access (eg: restore/scroll/minimize) a computer window if you need to jog your memory about a particular letter
- Prove your progress to yourself: before starting an odd numbered chapter, read the last paragraph of the next chapter and note its degree of reading difficulty. Once finished these two chapters, re-read the last paragraph and compare to the first reading.
- Budget between 70 to 100 minutes to read and re-read each chapter.

INTRODUCING IN CHAPTER IV:

- 'r' for the neutral vowel sound the first vowel sound in 'about' (eg: apart -> rpart, data -> datr)[†]
- 'o' for the vowel sound 'owe' (eg: snow -> sno, go -> go)
- ' γ ' for the consonant sound in ' \underline{z} oo', but in this chapter only for the words 'is' [is -> iz -> i γ], 'as' [as -> az -> μ] and 'was' [was -> woz ->/ γ]
- '/' for the consonant sound in 'we', but in this chapter only for the word 'was' [was -> $\sqrt{\chi}$]

† NOTE: Since General Australian is the English model used the "spell all 'R's" rule is not applied. This means that many words that traditionally end with '-er', '-or', '-ar', etc., end with the just the quickscript letter 'r'. (eg: sister -> sistr, doctor -> doctr, dollar->dollr). This is contrary to the QuickScript Manual.
